EXAMINER'S COMMENT

Inventorship

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

REASONS FOR ALLOWANCE

2. Claims 1-21 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1, 6, 11, 16, 18, 20 and their extended claims is the claimed subject matter regarding "a processor for processing that control data input according to an algorithm that iterates during a transient to yield data values for the time derivative of the control data input during the transient, wherein an iteration of the algorithm includes processing the control data input according to a first function to yield a first data value, processing the control data input according to a second function to yield a second data value, and processing the first and second data values according to a third function to yield a data value for the time derivative of the control data input" which the prior art references did not disclose.

Art Unit: 3747

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
